Live Well Outside

OldcastleAPG
A CRH COMPANY

Together with our Oldcastle® family of brands, we not only transform outdoor spaces, we transform the way families live in those spaces. By providing opportunities to connect, reflect and recharge, our goal is to help others *Live Well Outside*.

Your Outdoor Living Journey **STARTS HERE**

Tools and planning considerations for designing and creating a new space where you can connect, reflect and recharge.

1 GET INSPIRED

This product catalog was designed to help you explore your options and inspire your creativity. Get ideas on a wide variety of outdoor living projects and how to recreate the looks you love in your own backyard. Then, work with your contractor to refine your vision.

2 SELECT *the* **RIGHT PARTNER**

Choosing a contractor is an important decision. It's critical to build a relationship and work together to create your ideal outdoor living space. Scan the QR code below to find the ideal partner for your vision.

**FIND YOUR
CONTRACTOR**

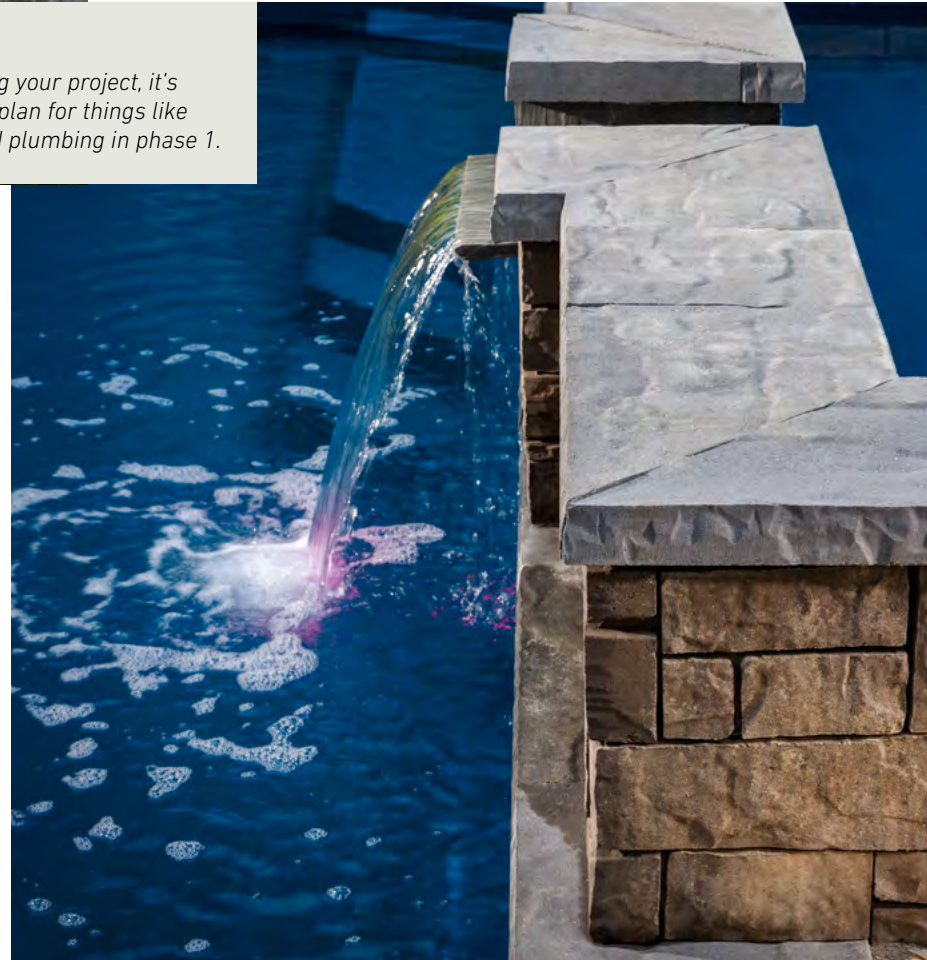

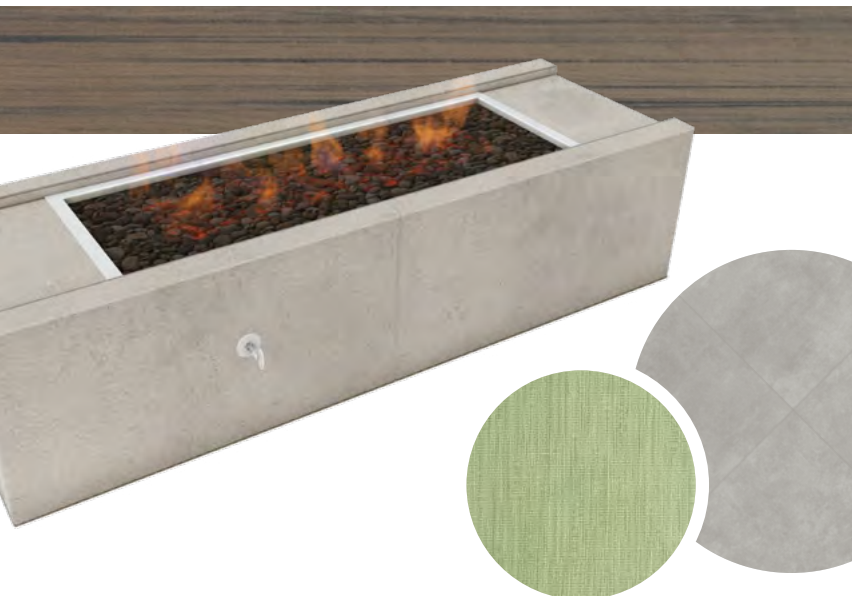

3 TO PHASE *or not* TO PHASE

Sometimes, it's not feasible to build your entire dream outdoor space at once. Discuss financing options with your contractor or develop a phased plan that makes the most sense from a cost and lifestyle perspective.

PRO TIP

When phasing your project, it's important to plan for things like electrical and plumbing in phase 1.

Your dream space
NOW A REALITY.

Time to plan
WHAT'S NEXT.

Whether installing one outdoor room at a time or simply adding onto an existing outdoor living area, our Augmented Reality tool helps you visualize your future space. Simply load your favorite AR Room onto your mobile device and project it onto your actual yard. Physically walk through the design and get a realistic vision of how you would live in that space.

THE HOME EDIT

Joanna Teplin and Clea Shearer

 *@TheHomeEdit*

"We loved working with Belgard to transform our backyard into a dreamy outdoor oasis. They offer infinite design options and work closely with you every step of the way. Thanks to Belgard, we now have the perfect space to host team happy hours or just unwind after a long day."

The Home Edit

TheHomeEdit

TheHomeEdit

"Working with Belgard has been such a joy! Their innovative products and excellent service helped us create the amazing outdoor spaces that make up our dream home. My family is looking forward to making many happy memories here, thanks in part to Belgard."

DESIGN TOOLS FOR PROFESSIONALS

Use our online tools to visualize a future space, from pre-crafted design plans to downloadable design software assets.

SHAPE

SHOWCASE YOUR PERSONALITY

Choose contemporary stylings, classically tailored shapes, or something whimsical or avant-garde.

PATTERN

ADD DEFINITION TO YOUR SPACE

Changes in pattern layout can guide furniture placement or define a transition between rooms.

TEXTURE

DEFINE A ROOM'S CHARACTER

Smooth textures create a contemporary elegant feel, while woodgrain or stone textures mirror nature.

DURAFUSION™

Fused layer of ultra-fine aggregates for enhanced colour, texture & durability

Ultimate **DURABILITY**

DuraFusion fuses a top layer of rich pigments with Belgard's core colour process. The result is a paver with a richness and purity of colour that's sleek and vibrant. With a base of coarser aggregates for a strong foundation and a top layer of wear-resistant finer aggregates, you have a product with unparalleled colour vibrancy that will stand the test of time.

BLACKJACK®

SCREWJACK & ONESTEP SYSTEM

BlackJack® ScrewJack Pedestals & BlackJack® OneStep System

Two adjustable support systems for installing slabs.

BlackJack® ScrewJack Pedestals are a height and slope adjustable pedestal for slab and decking support, engineered to reduce material, construction and lifecycle costs.

It caters to a wide range of height requirements, from 27/8" - 40" (74mm - 1016mm), using only three main components (*Top, Coupler and Base*).

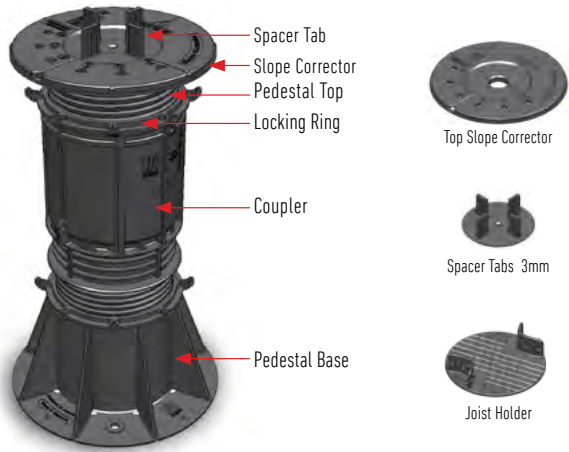

Accessories include top slope-correctors, spacer tabs, couplers and joist holders.

High Compressive Strength

BlackJack® has high ultimate compressive strength for various height combinations.

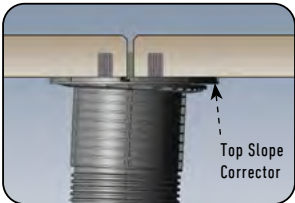

Supports Green Building

BlackJack® is manufactured from recycled polypropylene, LEED® points available.

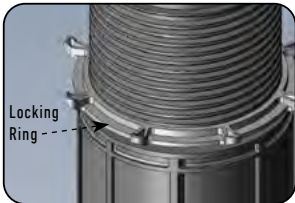

Top Slope Corrector

Top Slope Correctors provide for slope compensation up to 5%, keeping pavers level on a sloping surface.

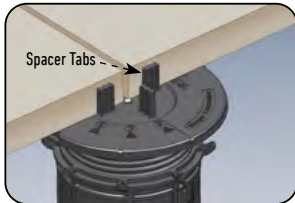

Locking Ring

Locking Rings ensure pedestals are secured at desired heights and are easily removed when not required.

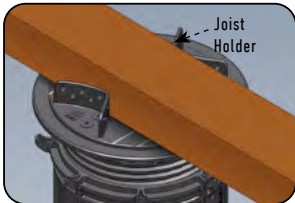

Spacer Tab

Spacer Tab height 5/8" (15mm) with a thickness of 1/8" (3mm) between slabs.

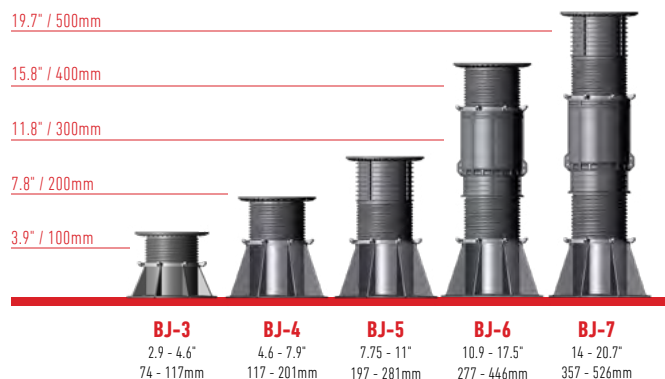

Joist Holder (special order)

Joist Holders accommodate joist width from 1 3/8" to 3 1/8" (35mm - 80mm) to keep joists firmly in place on pedestals.

Create a wide range of pedestal heights by combining these components

BLACKJACK® ONESTEP SYSTEM

OneStep and **HalfStep** pedestals have individual chocks that can be adjusted independently in 1mm increments to compensate for uneven installation surfaces. Both pedestals can be separated into halves or quarters enabling flush placement along wall edges as well as inside and outside corners.

OneStep pedestals are designed for slab support engineered to reduce material, construction and life-cycle costs. They have a height range of between .95" and 1.77" (24mm and 44mm). The height may be increased to 4.1" (104mm) by using BJ 20E and/or BJ 40E extenders.

HalfStep pedestals have a height range of .47" and .94" (12mm-24mm)

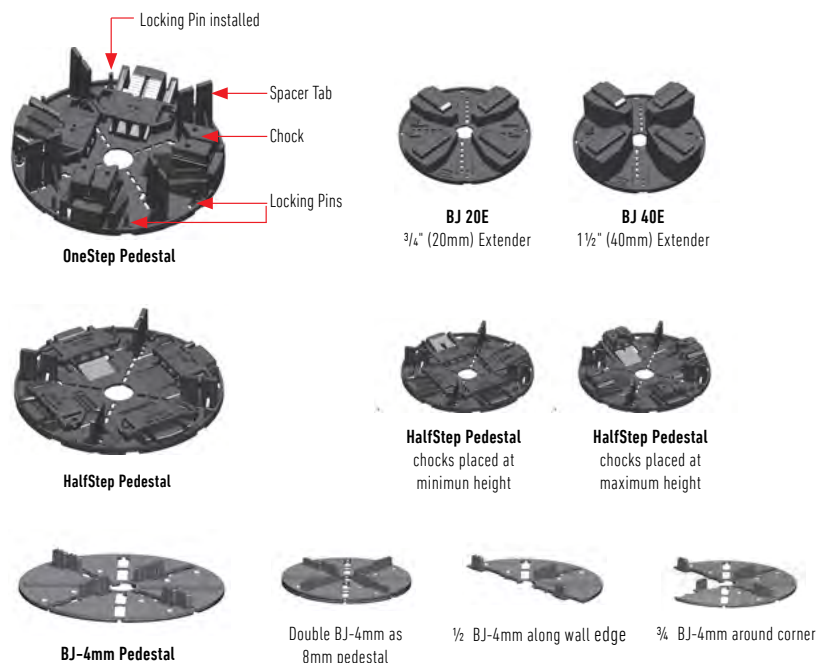

The **BJ - 4mm** pedestal is an ultra-low fixed-height pedestal designed to support concrete, stone, tile and timber pavers. It also creates a drainage layer which reduces efflorescence and algae growth.

SYSTEM ADVANTAGES:

- Minimum height of .16" (4mm).
- Easy to install and lightweight.
- OneStep provides progressive 1mm adjustment.
- Lock height adjustment in place with locking pins.
- Made from recycled polypropylene.
- Accommodates slabs of inconsistent thickness.
- Reduces construction time.
- Reusable, suitable for temporary paving or retrofitting.

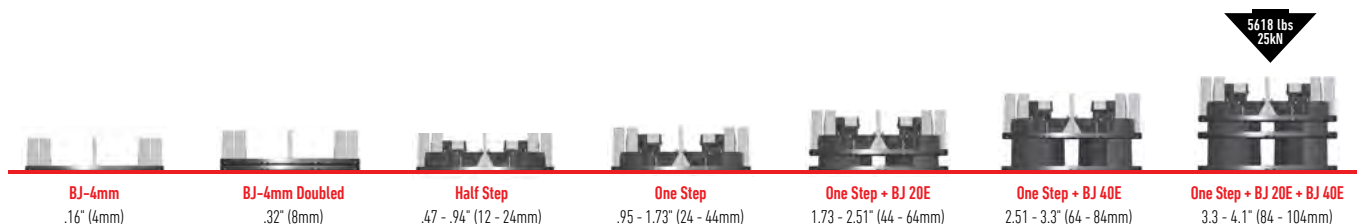

CONSTRUCTION BENEFITS OF BLACKJACK® PEDESTALS:

- BlackJack® Srew Jack Pedestals provides a quick to install alternative to on-site fabricated concrete or metal piers.
- It allows convenient progressive height adjustments and correction for fall. Desired height is secured with integrated Locking Rings.
- The large flat base and rounded edges do not penetrate and compromise waterproofing membranes. The base flange design prevents water ponding and breeding of pests.

ONE STEP CONSTRUCTION BENEFITS:

- Height extensions and height adjustments are easy and convenient. Independent chock adjustments can be made to compensate for differences in slab thickness.
- Eliminates need for bedding sand or cement screed, reducing the load burden on building structures. It also reduces installation time and costs.
- Joint sealant and grouts are unnecessary between slabs. The slab gaps provide surface drainage and allow for expansion and contraction.

WE COVER A LOT OF GROUND.

LIFETIME TRANSFERABLE LIMITED WARRANTY

As the largest provider of hardscape products in North America, we proudly stand behind our products with our Lifetime Transferable Limited Warranty. You can relax knowing that once your Belgard hardscape is installed by an authorized contractor, it's warrantied for as long as you own your home. We also encourage you to register your products to stay up to date on care and maintenance.
